

ARTEMIS

THIS DYNAMIC QUADRIPOlar DIATHERMY
ACTS AT MEDIUM DEPTH

MEDICAL DIVISION

BALDAN GROUP

ARTEMIS

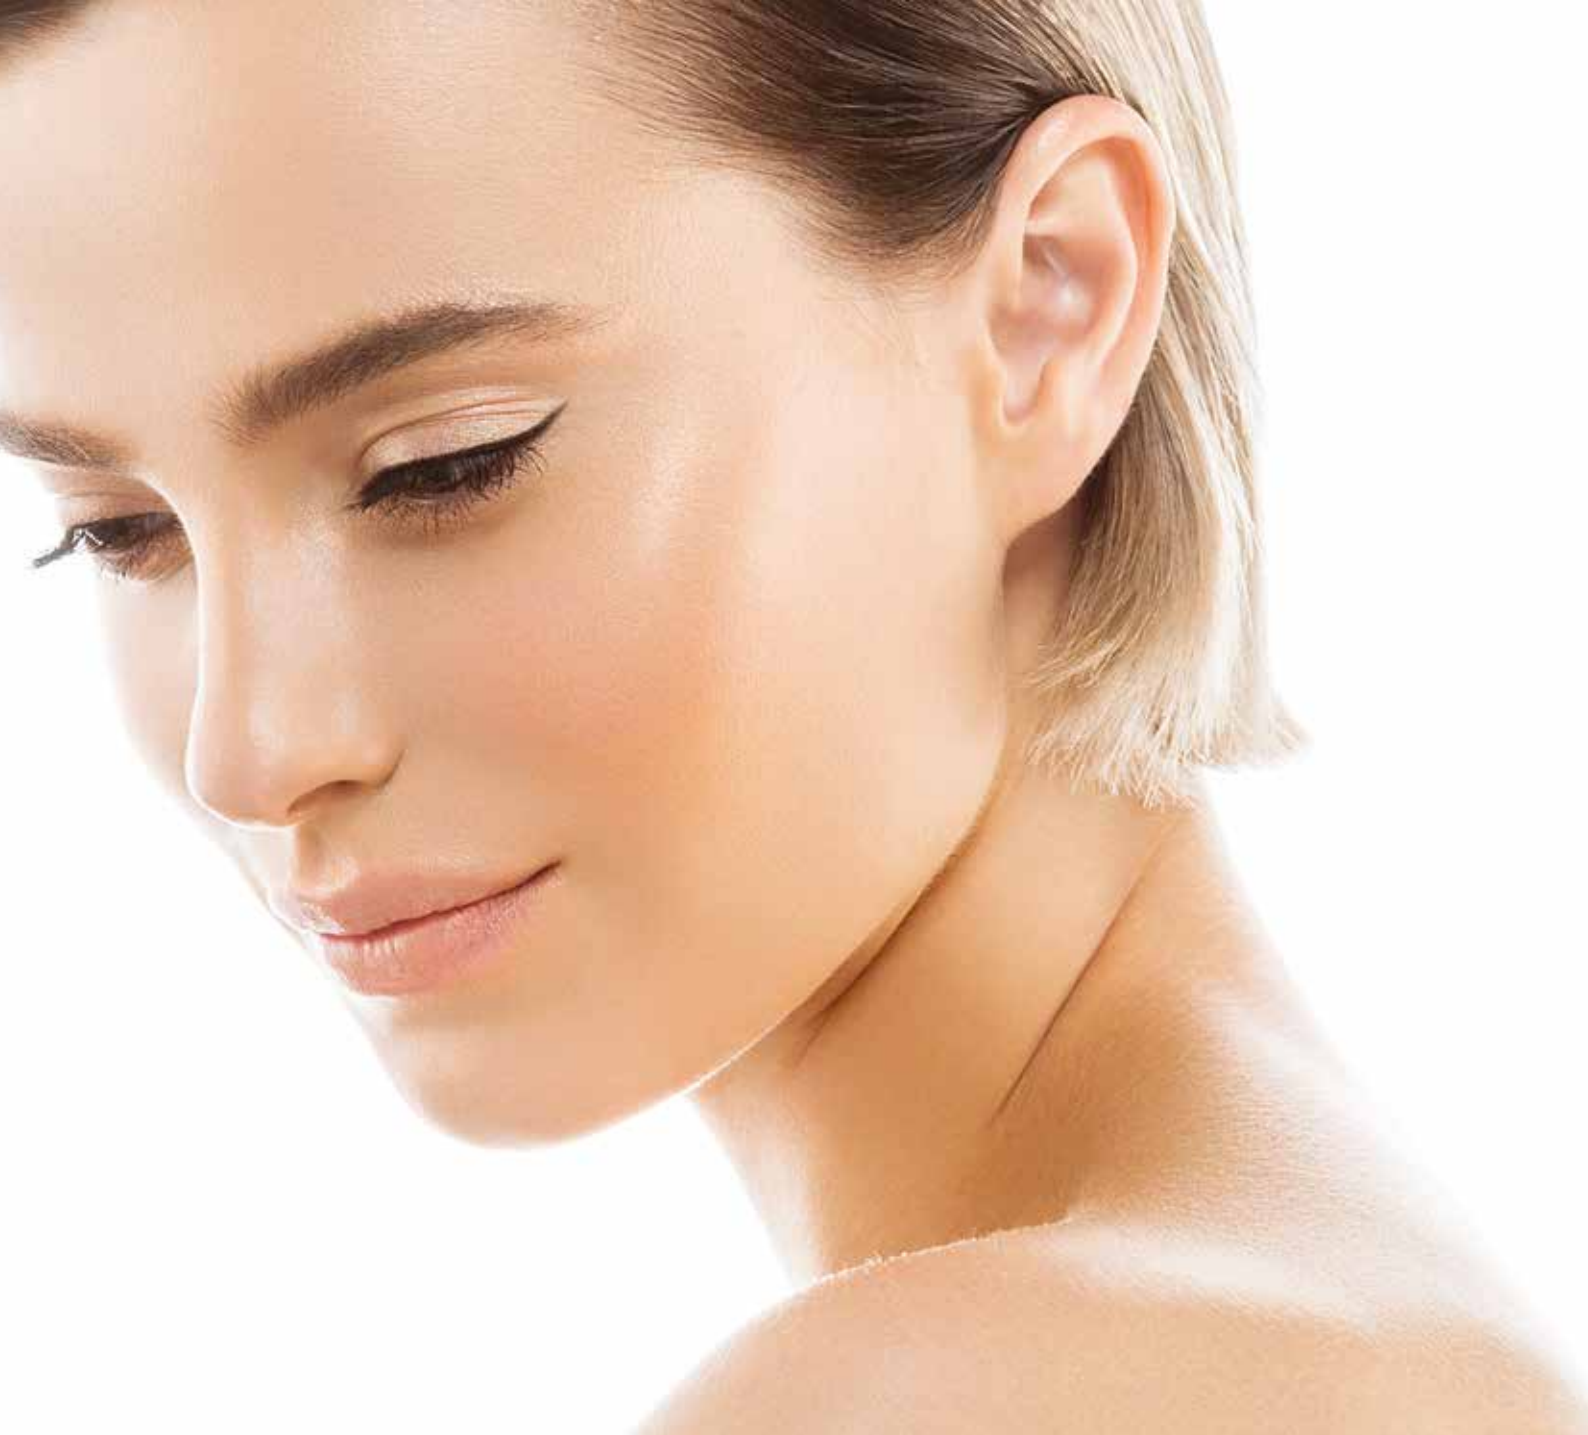

ARTEMIS is a technology designed and studied to treat the main pathologies and imperfections of the face in a safe, effective and comfortable way. This latest generation diathermy gently and selectively heats the different skin layers, accelerates physiological cellular renewal, stimulates the production of new collagen, restores the elasticity and compactness of tissues.

The dynamism in the emission of quadripolar diathermy energy allows to focus the action on the layer of the affected tissue through a self-guided system, drastically reducing the power of use compared to traditional machines, making it able to focus energy in a targeted way only where necessary.

EFFECTIVE FOR:

- Sagging skin
 - Lifting for the face, neck and décolleté.
 - Hand rejuvenation
 - Facial contouring
 - Split resurfacing
-

A SYNERGY OF INNOVATIVE TECHNOLOGIES FOR PERFECT EFFECTIVENESS

Allows you to act in a timely and precise manner by focusing the emission of energy to the specific tissue layer requiring treatment – be it epidermis, dermis or hypodermis with extraordinary results of improvement of the tissue.

Works through selective vaporisation of micro-areas of the epidermis and accelerates the physiological cellular turn-over.

Exclusive handpiece with 32 golden needles, for targeted action, especially on imperfections that are difficult to treat.

Allows the operator to work in perfect safety. Dynamic electrode control allows the energy to be conveyed in depth, safeguarding the surface from a high temperature increase that could lead to surface burns.

Innovative solution for areas such as the face, forehead, periorcular and perilabial areas, nose-cheek furrows, cheeks, chin, neck and hands.

THE HANDPIECES

	LIFT	FRAX	NEEDLE
			
FACE	Face lifting Forehead wrinkles - Eyes wrinkles Cheeks wrinkles - Lips wrinkles Neck wrinkles Chin remodeling	Anti-age Dermopeeling Discolouration Acne	Deep Dermopeeling Discolouration Scars
BODY	Lifting décolleté Lifting hands	Dermopeeling Dyschromias Acne Stretch marks Scars	Scars Stretch marks Dyschromias Hand rejuvenation
